# UNILEAD

---

In 2022 and 2023, the University Leaders in SDGs Central Development Project (UNILEAD I and II) focused specifically on the **operational aspects of sustainable development** at universities and on communicating this topic to students and staff at universities.

UNILEAD involved **25 Czech public universities**, coordinated by Masaryk University. Funding was provided by the Ministry of Education. Cooperation is currently continuing on a voluntary basis.

The output of the UNILEAD II project is sub-generic strategies and sub-individual strategies. These are a set of rules, procedures, checklists, and elements to be respected and available when **developing specific sustainability strategies**. The generic and individual strategies are interlinked and complement each other.

**CU guarantees the area of sustainable food** within the project. The topic is closely linked to the other areas addressed in the project (responsible waste management, purchasing, etc.). More information on sustainable food can be found [here](#).

## Outputs

1. [Strategy, strategic partnerships, and the structure for sustainability](#)
2. [Responsible purchasing – public procurement](#)
3. **Waste, prevention, and recycling**
  - a. [Summary](#)
  - b. [Strategy in Czech](#)
4. **Food**
  - a. [Summary](#)
  - b. [Strategy in Czech](#)
5. **Sustainable mobility of students and staff in higher education**
  - a. [Summary](#)
  - b. [Strategy in Czech](#)
6. **Water management, stormwater, and grey water**
  - a. [Summary](#)
  - b. [Strategy in Czech](#)
7. **Biodiversity**
  - a. [Summary](#)
  - b. [Strategy in Czech](#)
8. **Energy Management**
  - a. [Summary](#)
  - b. [Strategy in Czech](#)
9. **Green Construction**
  - a. [Summary](#)
  - b. [Strategy in Czech](#)
10. **Sustainable IT infrastructure, electronization**
  - a. [Summary](#)
  - b. [Strategy in Czech](#)
