# Coordinators

---

In order to strengthen the university-wide dialogue and coordination, an internal network of faculty and unit staff members has been established whose regular agenda or job description touches on the topic of sustainable development or who have a personal interest in this topic. These coordinators are in regular contact with the SD Manager, assist in the achievement of the set indicators, and serve as a bridge between the faculty or unit and the Rectorate.

<h3>Faculties:</h3>

**Catholic Theological Faculty**
